WHY JESUS WAS CRUCIFIED

CHARGED WITH BLASPHEMY

The difference between the teachings of Jesus and the law of the Jews: Jesus teaches love of all mankind, the Jewish law sentenced to death the man who dared oppose its cruel practices in the name of religion and who denounced it openly until the Jewish elders decided it was time to silence Him forever.

• • • •

The average person has a hazy picture about a young 'Jew' who was teaching a 'new religion' in the cities of Palestine and preached it in the Temple of Jerusalem, who claimed to be the 'king of the Jews' and was crucified by Pontius Pilate upon taking a 'democratic vote' between him and a certain Barabbas. Combined with this hazy picture looms the mystery of the resurrection and the proud claim of modern Jews that 'He was a Jew', therefore we ought to respect the Yiddish outfit and submit to their domination in commerce, finance and politics, because 'He was a Jew'.

The facts of the matter are entirely at variance.

Jesus of Nazareth was not a Jew, by race, but a Nazarene, which was a colony of Arameans, just as for example we have Dutch and Swedish colonies in America. Today the descendants of the Arameans are known as Armenians. Jesus was a full blooded Aryan and there was not a drop of Semitic blood in Him. That is why in Judea, where they were so particular about racial and blood ancestry, he was looked down on as 'what good could come out of Nazareth'.

He was not a Jew, because had He been one, the Sanhredin and the Herod would have had jurisdiction over Him and they would **stoned Him.** But being a Gentile from Nazareth, the 'crime' was so much greater in the eyes of the Sanhredin, when a Gentile claimed to be the Messaiah promised by the prophets who was to liberate the Jews from bondage and so they sentenced Him to death for **blasphemy.** Read Matthew, chap. 26. verse 63 to 66. Here He was adjured by the High Priest to state whether He was the Christ. Affirming it, He was found guilty of **blasphemy** and the Sanhredin ruled that "He was **worthy of death".** But they had to turn him over to Pilate, because **He was not a Jew** and by rabble rousing a plebiscite was taken "democratically" and the rabble rousing Jews succeeded to get the "people" to vote to release Barabbas.

Modern Parallel of Jewish "Democracy"

The same methods used to crucify Jesus by "popular democratic" vote have been applied in the U. S. to introduce the NEW DEAL and pervert the courts, the constitution, the legislatures and the whole administration of the several states and the federal government. And the Jews are behind it as forcibly as they were behind the crucifixion. They incite Gentiles to murder Gentiles in the present world war and want to drag the U. S. into it also.

The confusion in the average mind arises over Jesus' ancestry because the western mind, who is not familiar with Oriental genealogy, does not take into consideration the 'adoption' method.

When I was in the near east, which by the way is still ancient in its customs and characteristics as it was two thousand years ago, nothing has changed, racial prejudices and crimes are rampant now as then;—I was to be adopted in several Arabian tribes because I happened to be of service to them. In America white men were adopted in Indian tribes. While becoming a 'red man' by adoption, the truth still would not be changed about his being a Caucasian. Thus on his mother's side Jesus was nominally a Jew and brought up in the Temple. In fact he was not racially a Jew, and does not show any of the treacherous characteristics of the Jew, He was treated as an interloper by the Jews. But by adoption He was the **owner of the ground on which the Temple stood** and so He had the

legal power to drive the money changers from that site and cancel their lease, which He did saying: "Is it not written, My House shall be called the House of Prayers to all nations? But you have made it a den of thieves!"

Eugenic Ancestry of Jesus

In comparing His ancestry with that of the leading Jews of the Sanhredin, Jesus uses the going Oriental terms by which two definite groups of people were and are classified to this day in those countries. Children of Light vs. Children of Darkness.

Thus Jesus was one of the Children of the God of Light and He calls Himself a matured Son of God with full authority to represent the interests of the Creator here upon this planet. While opposed to Him were and are the Children of Darkness. Read John, Chapter 8, verses 44, 45: "Ye are of **your father** the devil, and the lusts of your father it is your will to do. He was a murderer from the beginning, and standeth not in the truth because there is no truth in him . . . But because I say the truth, ye believe

(Continued to page three)

MUSINGS

We try to reach perfection
And get the gong . . .
But hope is born again
As we trudge on.

—Oliva M. Diaz.

Natural Etiquette

Goethe, the great German writer, said: There is a courtesy of the heart; it is allied to love. From it springs the purest courtesy in the outward behavior.

GIANNINI AND MORGAN SEEK STATE PROTECTION

With the state banks disappearing over the period of the last two decades and with national bank charters almost universally sought in preference to state charters, why is it that Morgan chooses to operate under the state?

The answer is found in Giannini's Bank of America and in J. P. Morgan & Co., Inc.

In the one instance the State of California is preferred to the United States of America, in the other instance the State of New York is preferred to the United States of America.

Giannini found himself the victim of a new absolutism. Morgan profited by the experience and chose the State as a refuge from the illicitly inquiring minds of New Dealers in high places who never negotiated a loan, much less lent a dollar.—Social Justice.

OSCAR KNECHT REPLIES TO CHARGES

Last week we brought out charges made against the Building Inspector's office of the city of San Diego, by Frances A. Whitney, of 2945 India St. Since the lady is not the only one who is up in arms against the Building Inspector's office, we published her story as she told it to us, that she and others may not be able to say that she did not have her day "in court" before public opinion.

Following this publication, naturally, Oscar Knecht grew indignant and wanted to know why we had not looked at all his records first before presenting the charges. He believes we would, then, never have published the story. But in that case the Whitneys and others would have said that we conspired with Knecht to suppress the facts and that there is no free press in this city after they failed to get "justice" from the authorities.

The records in Knecht's office show that Deputy Inspector Lester Milz was assigned on Sept. 6, 1938 to inspect the building constructed by Contractor J. A. Holstrom. By the way, the Klicka Mortgage Co. says they did not finance the building but that the contractor bought his materials from the Klicka Lumber Co.

[illegible] that Knecht's office ordered [illegible] contractor in October, 1938 to go seven [illegible] deeper for the foundations of the retaining wall than he had contracted with the Whitney's, which cost him quite a sum of money. He hired an architect, Charles H. Salyers, who drew the plans accordingly. In this way the foundation was built on original ground and not on fill.

On Dec. 8, 1938 Inspector did not approve underpinning & bracing, it being noted unsafe.

On Feb. 7, 1939 Knecht's office rejected the underpinning as unsafe again and formally informed contractor on March 2 that underpinning would not withstand earthquake stresses.

The Whitneys claim that Knecht's duty was to stop the contractor then and there from erecting the building on top of the unsafe underpinning and that he was negligent in not doing so. So on March 29 they employed Structural Engineer E. L. Freeland to make a report on the underpinning. Freeland reported in detail the various weak features. On the day Freeland was retained by the Whitneys, Knecht formally informed the contractor to forthwith remedy the underpinning condition.

Knecht maintains that the Whitneys are in error when they claim that it was his duty to stop erection of the building when the underpinning was declared unsafe. He says that under the code as long as nobody was moving into the house and the weakness could be remedied later, since the brace-work was in the open, he had no authority to stop the contractor from proceeding with completion of the house proper.

Then the contractor hired again Architect Salyers to draw up plans for an earthquake proof under-structure, on April 24, 1939, and the Inspector approved the building on May 20, 1939, after which the Whitney's were permitted to move in.

As a disinterested bystander to this controversy between owners, contractor and the City Inspector, it appears to me that the fault lies not so much with the contractor or the inspector, but with the failure of the owners to employ a registered architect in the first place when they decided to build such a peculiar structure, up on stilts, on the side of a canyon, beside a filled in road bed which wobbles with every truck passing by. There was much specialized work needed which was done in installments amidst lots of bad feeling and charges and counter charges, which fuss could have been avoided had a competent architect drawn up the plans instead of amateurs.

And as the outcome proves, it would have been cheaper and saved lots of time in construction. The contractor lost money, but the the Whitneys got a better building than they bargained for in the first instance. If it shakes, its because India street is on a fill at that location.

SLUM CLEARANCE COSTLY TO HOME OWNING CITIZEN

WASHINGTON, D. C.,—That wrathful citizen, the taxpaying property owner, will have reason to be grieved by still another step taken by the Federal Government, this time in connection with its slum clearance activity in the larger cities.

When the Federal Government undertakes a slum clearance project, the property used is removed from the assessment rolls of the local government. To compensate for this loss in revenue the Government voluntarily consents to an assessment, not to exceed 5 per cent of the income from the property during the tax year.

Now the Federal Government is seeking to lower this voluntary contribution to the local tax coffers from 5 per cent to 2 per cent. It must be remembered that this percentage is computed, not on the valuation of the property, but on its annual rental return.

To show what this means to the local government, and the local taxpayers, consider one example. Assume a Federal slum-clearance dwelling is worth $5,000. Assume its yearly rental is $450. Its tax contribution under the old system would be 5 per cent of $450, or $22.50.

A few blocks away is a privately-owned dwelling of equal value. It is subject to the local as[illegible]n, let us say. This owner pays $150 yearly for the same privileges enjoyed by the Federal unit at $22.50 per year.

Now, under the proposed reduction rate, the Government house will pay taxes of only $9 per year, while the private owner still pays $150 or more for a similar dwelling!

It is obvious that, dividing the cost of city maintenance by the number of dwellings, the private owner is paying not only his just share for his own dwelling, he is paying in addition the difference between the per capita rate, and the Federal unit-return. This is one penalty of bureaucracy.

But more important, this is a dangerous adventure in collectivism. In this instance, Government ownership and control is infringing on private rights. Those rights will be no longer sacred unless the collectivist trend is checked.

Henry George

Dear Editor:

If your readers wish to nominate the name of Henry George for Inclusion by the Committee of the **Hall of Fame,** they should be notified as early as possible to write to Dr. John H. Finley, 630 Fifth Ave., New York City, for the **blank forms used for the purpose,** before August! Many Georgeans may wish to do so, but they must follow procedure. Possibly your journal will notify them? Maybe some may choose Thomas Paine?

Best Wishes to You, Sincerely,
WALDO WERNICKE,
212 N. Beaudry Ave., L. A.

Art Cloninger, of the Brass Rail Buffett, did not like the way the district attorney's office raided his joint at the Emerald Hills Country Club and hauled away the gambling junk. He thought he had the sheriff sewed up and was safe to gamble openly. Maybe he had. That's why the D. A. should demand that the 1940 grand jury be impaneled to investigate the nonfeasance of the sheriff and file an indictment.

Declared a legal paper of general circulation for the County and City of San Diego, by Superior Court order, January 15, 1932.

Entered as second-class matter March 27, 1931, at the postoffice of San Diego, California, under the Act of March 3, 1879.

Thomas E. Dewey For "President" ?

"We must stop this senseless squandering!" declares G. O. P. Candidate Tom Dewey. Old stuff; F. D. Roosevelt said it in 1932, and much better.
—Vista Press.

The Same Old Crowd

Being registered a Republican, naturally some of the Republicans who are pulling for Dewey for president have asked me whether I would support him. My answer is no. I don't believe he would make the ticket, but should he make it I would not support him. He is no good, at all.

Thomas E. Dewey is the stooge for the self-same crowd that put FDR in the saddle. He is unscrupulous. The old adage, it takes a thief to catch a thief applies to Dewey. That is why he succeeded in his racket busting. He is the ideal fellow for any bunch of racketeers who want to bust up their competitors. Dewey did not bust up rackets to really do away with them, he busted up the rackets that interfered with the rackets of the smarter racketeers who **operate within the law** by passing their own laws through the legislatures and congress.

Kindly bear in mind that he is Governor Lehman's appointee. Lehman belongs to the Bernard Baruch crowd who ran the greatest racket during the world war when those dollar a year pariots became millionaires under his guidance as war industries administrator. Baruch is the fellow who imposed the NRA and furnished iron pants Johnson to crack down on us. Roosevelt and Dewey are twins. If the suckers want to get rid of Roosevelt to supplant him with Dewey and bring the subversive ideas of Frankfurter and Benjamin Cohen to fruition, they are welcome to it, but I won't be a party.

Hoover Least of Evils

In fact neither the GOP nor the Jackass party have any men whom honest to goodness Americans could entrust with the presidency. All of them are politicians in the sinister sense, playing up for votes and power but not equipped spiritually, morally and mentally to cope with the internal and external problems of the nation. All of them are willing to play up to the galleries and streamline the New Deal, as well as have a hand in European affairs. Hoover is no exception as his Finnish adventure shows. We have no business financing the world in its wars, its of their own making, let them pay for it and take the consequences. When they will know that Uncle Sammy is out, for keeps, they soon will make peace among themselves, but they are still drawing on our treasury while we continue to finance the war as the Baruch-Morgenthau crowd is doing at present through their purchase of gold, silver and permission to riffle our mail and steal our trade secrets and valuables.

What we really should do is pray and repent for our sins, for there is no hope from the politicians, they are all alike, some worse than others and among them Herbert Hoover is the least of the evils.

Should Reliefers Vote On Dole ?

Dear Mr. de Aryan:

Enclosed please find check for renewal of my subscription. Too bad more people don't take your BROOM instead of taking numbers given to them by our "public servants" who are forcing Communism upon us.

The SATURDAY EVENING POST of March 9th, 1940 reports:

"San Diego: A special committee on economic conditions of the San Diego County grand jury, finding that relief is "fast becoming intolerable burden to taxpayers", filed the conclusion: "Seeking any measure to divorce politics from relief, we suggest, with considerable hesitation, that the simpliest and quickest way be to suspend the voting power of the relief clients for the period of relief."

The only reason in the world why able-bodied men are on relief is because committees on economic conditions and politicians are allowed to vote to create their jobs. Suspend the voting power of the law-makers & law-administrators, instead of the reliefers who are the victims of legal wrong; then the law-makers and the law-administrators would work for the general welfare of the people in order to hold their jobs. "A Social Worker" is only a highly paid reliefer.

Government is not unlike any other business. How long would any business last if it's employees could vote on what their pay should be, the hours they should work and the pensions they should receive?

The Hatch-Law is only a law designed to get the people (reconciled) to the suppression of free speech; by first passing laws as to what the politicians themselves can say and do, they pave the way for laws that will do the same thing to the rest of us.

Our Public Servants can only become our Masters two ways: By voting trick laws over on the people, with the help of fools, who are willing to exchange their liberty for a pot of beans, or by force. Let the Republicans declare themselves in this matter, **before** they ask free-men to vote for them. Best wishes from,
A. R. WEAVER. (And not number so and so).
San Francisco.

Editor's Note: Following the line of argument advanced by A. R. WEAVER, namely: "How long would any business last if it's employees could vote on what their pay should be, etc.", it is quite evident that those who receive a dole should not vote on how much they ought to get, or get any at all, for if they still have the vote how long would the state remain solvent?

JIMMIE'S JINX ON RICHARDS

County Supervisor LeRoy Richards of National City is running for re-election this fall. James Hervey Johnson is grooming an opponent for him and some claim he intends to be that opponent himself. Did not investigate whether Jimmie lives in that district, but the Jinx don't seem to care. When James Hervey ran against Moulton for assessor, ten years ago, Moulton obliged by going on a drunk and indulging in a collision with a tree, leaving his car there as evidence. That elected Johnson assessor.

Now the Jinx is working on Richards. Last week he indulged in a collision with a tree and was booked on a drunk driving charge. The trial is yet to come up before a jury. While there is a chance of being found not guilty, Jimmy and his Jinx are pulling the other way. In fact J. H. is a Jinx himself, and to himself, his own worst Jinx.

The Love of Truth is the Essence of Intelligence

PETE'S NEPHEW

It being his 60th birthday and his last day as police chief I went last Wednesday to congratulate old John T. Peterson at the central police station. While he accepted the proferred hand, he did not believe it, for he grumbled that he was "still an honest man at his age". John cannot get over it that two bookmakers bought their Hudsons from his automobile company and I published the fact. Those fellows are out of luck now, John T. is out, but his "nephew" from Long Beach is in.

"Pete's nephew" very obligingly dropped in while I was with John in Henderson's office, Henderson is the police chief's secretary. The "nephew" is Clifford E. Peterson from Long Beach who takes old John's place. The boys at the station have already nicknamed him "Pete's nephew". The idea is that uncle and nephew are both alike. Of course, Cliff is no relation to John except that both of them soon will be exes, with Cliff not even getting a pension. Cliff knew his jig was up with all the interdepartmental fights he had in Long Beach with his chief where he was a lieutenant and was looking around for a soft place to land. Hizoner Percifal who chases away the holy grail, discovered that here was a fellow looking for a place to land and the two got together. Percy will boss the police and he told Fred Rhodes he found the man he was looking for chief. Fred had to appoint him and promptly did. But the boys say the jinx that followed Uncle Pete who never lasted long as chief will repeat.

Anyway, John introduced me to his nephew: "Want you to meet Mr. de Aryan. He'll make it hot for you. He made it hot for every chief." We shook hands but Pete's nephew refused to believe it. So I re-assured him: "Uncle is right, you sure are on the hot spot."

—o—

At the Police Station—First Cop: "Well, old Pete is gone". Second Cop: "And Repeat is here".

TURRENTINE'S JUNKET TRIPS

Ever since the County Probation Officer's automobile was found wrecked in the mountains after being stolen from a downtown parking lot where Superior Court Judge N. L. Turrentine had left it with the keys sticking in the ignition lock, I have been beseeched by phone, letter and personal contact from a number of people to investigate how it came that Turrentine may use the county car for junket trips to neighboring cities where he addressed private luncheon clubs. The occasion on which the car was stolen was after the judge had borrowed it to go to La Jolla to address the Kiwanis Club. I called on the judge and asked him about it.

"There is no reason why I should use my private car on business of the Juvenile Court", replied Turrentine.

"When you go to Los Angeles, Oceanside or elsewhere to talk to luncheon clubs, you don't call that Juvenile Court business?"

"The papers made a wrong report when they said I went to Oceanside. I talked in La Jolla. And on my way I stopped at various places, where wards of the court are placed with private families, to see how they were getting along. This is as much business of the juvenile court as it is of the probation office and that is what that car is for."

"How about Los Angeles? Have you got wards of the court in Los Angeles whom you visit?"

"When I talked in Los Angeles, I talked on juvenile court business, the same as when department heads are being sent to conventions and their expenses are paid. I paid my personal expense but the transportation was due me by the county."

There was nothing I could say against this explanation so I called on the probation officer and Worcester affirmed that they have wards of the court both in La Jolla and Oceanside whom Turrentine visits occasionally.

—o—

Nowadays a scandal has to be really bad to be good.

JEWISH WAR RUINS U. S.

WASHINGTON,—The European war's impact on the American economic household—present and prospective—is the chief concern of F.D.R.'s most skilled experts. It begins to look as if Uncle Sam will suffer more seriously from World War No. 1.

Great Britain and France are buying here only the war supplies which they badly need—airplanes, machine tools, trucks, etc. They are stimulating those industries to the point where a "bust" is in prospect—which means additional unemployment and loss of purchasing power. Meanwhile, the allies are arranging to purchase foodstuffs and other raw materials from the British dominions and neutrals like Italy, the Balkans, the South American countries and Scandinavia. Under the pressure of war London and Paris are creating competitors which will clip—perhaps ruin—Uncle Sam's foreign trade after the war's end.

Secy. Hull—and Secy. Wallace—are trying to find the answer, but they can't. It looks as if the principal loser in the European conflict will be, not Great Britain or Germany or Russia, but the United States of America.—Ray Tucker.

JEWISH PLAN OF WORLD FINANCE

At Expense of U. S. Taxpayer

NEW YORK,—Robert K. Pepper, general news editor of the Ft. Myers, Fla., News-Press, is the author of a plan to "dig up the buried gold" for the purpose of backing an international currency. The details of the proposal are available in printed form.

The new money is to be assigned to all nations of the world which would agree to fix permanent boundaries with their neighbors, to slash high tariffs and other trade barries. The author claims that the proper application of his plan will wipe out American unemployment, relief and deficits, will provide a sound basis for ending the European conflict, will remove the major economic causes for any future wars, and will restore shattered world trade. Many of the statements made in the presentation are indisputable, and if only half of the achievements which the au[illegible] sets to accomplish prove [illegible] potentially capable of materialization, the idea is worth closer study and examination.

Pepper's plan is a modification of the thought expressed by Adolf Berle, Assistant Secretary of State, that our gold should be redistributed. Pepper wants it kept in the U. S. A., but utilized for the increase of international trade.
—National Whirligig.

MAX OSSLO PICKET INSTRUCTOR

Last Wednesday morning Max Osslo, racketeer plenipotentiary of the S. D. AFL butcher's union, who robs his members by socking them plenty for initiation fees and a good deal more in fines, wandered around the Trifty Market at 12th & E, where two pickets have been posted to annoy the meat market customers because the owner refuses to pay tribute to Osslo and take orders from him how to run his business. But the pickets were not picketing. They were comfortably seated in their car. Osslo called them out, took a LABOR LEADER from them, spread it out in front of himself so the legend **UNFAIR MARKET** was plainly visible and showed them: "You walk up and down, this way, so the people may read it".

No sooned was teacher gone around the corner than the boys went back into their car and when teacher returned, for he was merely circling around the block, he saw his pickets . . . "What the hell, you guys, what do you think this is? Get the hell out of that car and walk up and down the way I showed you". One picket followed suit but the other took the LABOR LEADER, crumpled it into a ball and threw it down: "Hell, I don't have to take this!" and walked off. So he won't be teacher's pet anymore and teacher will soak him a stiff fine or kick him out of the racket altogether.

The Thrifty Market concessionaries are planning to go to court to sue Osslo and his union for damages on the grounds that they have no labor quarrel, since the dispute is only between Osslo and the Meat Market, while there is a bakery, grocery, delicatessen, real estate office, liquor shop, fruit-vegetable market and a restaurant that are being picketed, even though owned by different persons. They have a good chance of winning in court, too.

WHY JESUS WAS CRUCIFIED

(Continued from page One)

me not". He makes a very distinct difference between the "Children of Abraham" and the bastards of the mixed offspring of lust-ridden Jews who cohabited with Negroes, Malayans and Mongol slaves and their offspring was admitted as "Jews" who to this day are the scourge of the earth, because they are stupid, but cruel and treacherous. They suffer from an ineradicable inferiority complex, not being white, and try by unscrupulous methods to become social "equals" of the Caucasian Jews and Gen- [illegible] John, 8, verses 41, 42. The Jews claim that they were not bastards but that **their Father is God,** just as He is the Father of Jesus. This makes it so clear what is meant by Fatherhood of God.

But Jesus exposes them to be bastards and that their father was not of God, but of the devil and they were offsprings of lust, not love. There is a world of information and light in these sentences. Love mating is of God, lust-fornication is of the devil and the children are classified as Children of God or as Children of the devil, accordingly. Because Jesus traced the ancestry of the Sanhredin Jews and wrote it in the sand when they were gathered to stone Mary Magdalene and the Rabbis reading it in the sand, slinked away, one after the other, the common people could not read what He wrote, but the scribes did, Jesus saved her life.

Editor Takes Bow

The greatest honor which San Diego Jews bestowed upon me is the fact that a delegation from the scribes and pharisees of San Diego [illegible] on various merchants, after holding a secret meeting, to announce to them that "de Aryan is blaspheming our religion". This was followed up with threats of boycott if those merchants were to continue to advertise in The BROOM. By this action the local 'Sanhredin' has placed me in the same category with Jesus, for He, too, loving the truth, had to offend the Jewish "religion", was found "worthy of death".

If the Jewish "religion" cannot stand the light of truth, it certainly needs exposing and following in the footsteps of the Nazarene I shall certainly continue to expose it. If Jesus had to pay for it with His life, what can we expect who are not as highly developed as He was? But it certainly proves one point: **The Jewish religion must reek with filth and evil conspiracies** if the Jews have to resort to murder, intimidation, boycott and blackmail to keep the truth from coming to light.

BALBOA PARK RECREATION AREA

Jeanette Daley, assemblyman from the 78th district, has written a letter to City Manager Rhodes recommending planting of trees, erection o fpicnic tables, rest room facilities, bicycle race track, pitch and putt golf course, in the north-east section of Balboa Park where the swimming pool is located. Mrs. Daley is right and her suggestions should be followed out to the letter. We are having the beautiful park but it has not been improved to permit the people of the northern and eastern sections to get the full benefit to which they as taxpayers are entitled.

Ford Building Library

We notice that certain interested parties are attempting to shelve the down-town main library to the Ford building in the park. It is so preposterous a notion that it should not even receive the slighest attention. But they seem to be a group who have an ax to grind and are pushing hard to deprive the people of San Diego of the full use of their library. Those who have no cars would have to walk a lot to get to the Ford building. The main library belongs downtown as does the courthouse, where it is easily accessible. The idea of spreading all facilities far away from each other, erecting a civic center in one end of town, a police station in another, and now a library miles away from both, merely shows up the foolish land speculators racket for what it is.

GREETINGS TO POSTERITY
(From A. D. 1939)

You folks of the centuries to come
As yet uunborn by our great Sun,
When our history you shall read
Have compassion for us, I plead.

For centuries past few folks did play
The same great roles some act today;
Of planting and tending the seeds of Truth
And fortunate you will harvest the fruit!

—George Connelly Frend.

As She Said It

"Is it true, Miss Lollop, that you're going to be married soon?"

"No, it isn't. But I'm very grateful for the rumor."

JIM CROW

Dear Editor: Ask Mr. Graham why the Washington negroes didn't go to the Colored theatre, if it was the Great Emancipator picture they wanted to see, and **not** to sit down with white people? If they had a grain of self respect they would keep to themselves,—not butt in where they are unwelcome.—P. W. SCHWANDER.
Houston, Texas.

TRIAL OF 17 IS POSTPONED TO APRIL 3RD

NEW YORK,—Federal Judge Robert A. Inch has postponed to April 3 the trial of the 17 young men accused of plotting to overthrow the Government of the United States.

WHAT MEN SOWETH

And we go, and we go;
And we sow, and we sow;
To reap later on,
What frost left alone,
From what we have sown.

So let us take care,
And anxiously beware,
That the seed which we spend
May return at the end,
Tenfold into our hand.

COUNTY ROAD DEPARTMENT

Editor's Note: This is the 10th installment of the Grand Jury Report.

REPORT OF THE 1939 SAN DIEGO COUNTY GRAND JURY ON THE SAN DIEGO COUNTY ROAD DEPARTMENT

Complaints have reached the 1939 Grand Jury as to various phases of the operation of the County Road Department. We have held hearings and have questioned a number of present and former employees, as well as others well informed on road construction, including interested citizens.

Mission Valley Road

For a number of years the residents of the eastern section of San Diego City have been seeking a means of reaching U. S. Highway 101 and avoiding the bottle-neck between Tenth and Fifth Avenues on University Avenue, thus affording them a quicker and safer means of reaching the beaches in the northwestern section of San Diego County.

The residents of La Jolla, Mission Beach, Pacific Beach, Ocean Beach, Old Town and the northern part of the County have likewise been seeking a faster and safer traffic arterial to the eastern section of San Diego City and a connecting link between these residential areas and U. S. Highway 80.

The City Planning Commission and the County Planning Commission both recommended the grading, re-alignment and improvement of the Mission Valley route from Old Town to the State College and the eventual continuation of this highway in an easterly direction to U. S. Highway 80.

Approximately 5 miles of this route lies within San Diego City and 2.5 miles is outside of the City limits and in the County, leaving a balance of the distance running over an existing State Highway. Neither the City nor the County had sufficient available funds for the improvement of this highway.

By agreement between the City and County, the City contributed the use and upkeep of certain equipment and a set of plans and specifications for work to be done on the parts of the road within city limits. The County Road Department executed the heavy machinery part of the work and the W. P. A. provided the pick and shovel crew and the construction of culverts.

Poor Engineering Practice

Complaints were made that the reconstruction and re-alignment of this road, with some new construction, done during 1938 and 1939, were **not done according to good engineering practice.** The Grand Jury was informed by several witnesses that specifications should call for:

1. The removal of vegetation from a surface to be filled.
2. Proper scarification of the surface so that the material filled in would bond with the base.
3. Fills to be made in layers varying from six to twelve inches thick, each layer thoroughly watered and rolled until completely compacted.
4. Surfacing material must be free from pebbles, since they will always work up and cause roughness.

A laboratory test should be made of the surfacing material to determine its suitability for oiling and what type and quantity of oil was best for it.

Complaints charged: 1. That fills were made on the old roadway **without breaking it. 2.** That fills were generally made by end dumping with no layers . 3. That no facilities existed for sprinkling. 4. That **no roller was used** and that the practice of allowing the dump trucks to roll the new fill was not satisfactory and could not possibly be so. 5. That in two cuts made by power shovel, the cuts had been carried 1½ to 2 feet too deep on one side of the road at least and had been refilled in a single layer by material hauled back. 6. That material for surfacing had been taken from a nearby borrow-pit. That this was heavily charged with water-worn rock of all sizes to over six inches in diameter. 7. That no laboratory tests for suitability for oiling had been made.

Road Built Badly

Road Department employees, called as witnesses, testified:

1. That no specifications were prepared or used by the County for the construction of the road.
2. That the road bed was not scarified before fills were made.
3. That fills were made by end-dumping and spreading in layers a foot or more thick. Fills of three feet or less were made in a single layer.
4. That layers in fills were not watered or wet down, nor is this practice ever followed by the County Road Department.
5. That the incidental passing of dump trucks and other traffic was all that was used to pack the layers, although the County owns two power rollers.
6. That steam shovels were allowed to cut below prescribed levels on several occasions.
7. That the surfacing material contained very many water-worn rocks up to 6" diameter. Many, but far from all, were removed by blading and hand labor.
8. That no laboratory tests of the surfacing material for suitability for oiling or for the amount of oil needed, were made.
9. That much of the level part of the road through the valley has insufficient crown for proper drainage.
10. The City plans and specifications for construction of the City part of the road call for all cuts to be a 1-1 slope. All fills to be 1½-1. City specifications define standard practice for making fills. The County's construction of this road does not comply with these specifications.

Labor Conditions

The Grand Jury is inclined to be in sympathy with the Road Department in regard to some at least of its difficulties. In changing from five district superintendents to three, a change ordered by the Supervisors for purposes of economy, two district superintendents had to be retired or demoted. Naturally the management should select their men as much as possible. With the added factor of Civil Service coming in, there was bound to be some dissatisfaction. No new act of regulations can fail to work a few hardships.

However, in at least the first few gradings under the Merit Ratings by the Civil Service Commission, the Department did not follow regulations and get more than one superior's rating on some of the employees.

Road Department Claims

The County Road Department claims that they are saving money for the TAXPAYER because they do not have to write and **live up to specifications** that would be required should the work be done by contract. As there is now **no check on the quality** of the work they do, they **can build as poorly** or as carefully as the one in charge **may desire.**

The Road Department claims that as the money from the gasoline tax comes in quarterly, they could not let a contract for new work until all the money to pay for the new work was available [illegible] system which they use, they can spend the money as fast as they get it.

Conclusions

The Grand Jury finds that the County Road Department still carries much of the **old care-free happy-go-lucky spirit** of the old days when it was a political football.

The availability of W. P. A. material and labor has greatly increased its sphere of activity in the past six or seven years. The work has, however, been continued, using out-of-date methods without proper planning ahead or accounting. Only recently, **under pressure,** a proper accounting system is being installed, from which it is too early yet to determine results. Only still more recently have they begun to plan and coordinate the needs for the future and arrange a development program.

Purchases of new equipment have been very heavy within the past two years and everything is being set to compel the continuation of the system of building and reconstructing all County Roads by the Department staff and equipment.

The staff is **not guided by modern practice** as developed and used by similar bodies in City, State and National work.

The Civil Service efficiency rating system has **not been properly** used. The instructions of the Civil Service Commission have not been fully followed, to the end that the ratings do **not fairly** and impartially show the full and proper qualifications of the employee.

The cost of equipment owned and operated by the Road Department, as shown by their books of accounts, is top heavy, being in excess of the amount spent annually in the maintenance and improvement of the County Roads. The $60,000.00 in the 1939-40 budget, an item covered by a special road tax, has already been spent for new equipment.

Recommendations

We recommend as a matter of permanent policy:

1. That the activities of the Road Department be restricted to the maintenance and repair of existing County roads whenever possible.
2. That no new roads or major improvements on old roads be authorized until they have been passed upon and approved by the County Planning Commission.
3. That wherever possible all new roads and bridges and all major improvements on old roads costing in excess of $2,000.00 be **built by contract** after competitive bidding upon plans and **specifications prepared** for that particular class of road and under **rigid inspection.**
4. That the County roads should be classified on the basis of use under a long range plan which should be developed and approved somewhere between the County Planning Commission, the County Surveyor's office, the Road Department and the Board of Supervisors for the systematic development of the County road system. That this plan be revised and extended at intervals of perhaps a year. That the sequence of projects established in this plan should not be distributed by minority political pressure.
5. That the County Surveyor and Road Commissioner carefully and fully comply with the County Civil Service rules in rating and promoting personnel of the Road Department.
6. That the use of Road Department pick-up trucks by employees subject to emergency calls be **discontinued** and that such employees be paid mileage for the use of their own cars on emergency work only.

SAN DIEGO'S SEWAGE PROBLEM

By Frank W. Seifert

WASHINGTON,—My dear de Aryan: Have been reading your news item about the proposed sewer tax, obviously your comments are absolutely right, there is no single reason that might be given that would support any argument against taxing vacant lots for sewer connections. Of course they are very careful in wording any legislation, and it is purposely worded for (service) or (use), that of course throws it right back to the user and the argument is that vacant lots do not use it. The way it should be worded is as follows, "for each sewer connection or Y, based on the size of the lot".

Most certainly no tax should ever be imposed on the number of users or fixtures in one house —it should be only for connection to the sewer line.

For years, or to be more specific, the City of San Diego has used "Portland Cement Sewer Pipe", and since it has a very definite life it is necessary to replace it from time to time. Under certain conditions it lasts for a fairly long period, under others the life is very short. Of course there is no reason to use it under any conditions, for the very simple reason that sewer pipe once laid should last forever, and the only reason it should ever be replaced would be to put in a larger one that was outgrown by additional connections. In spite of the fact that the City of San Diego knows they should not use cement pipe they continued to use it. The United States Government will not use it and never has. Cement pipe is O. K. for Storm waters, but never for sewage.

Recently about one half of the sewer system interceptor and main lines had to be replaced in Mission Beach, the lines were approximately only ten years old. The job cost almost $250,000,00 but it did not hurt the people of San Diego too much, since most of the cost was born by the Federal Government, under a W. P. A. project. Some of the lines failed in Mission Beach before the bonds were paid for the original installation. The same condition existed out in your neighborhood around 53rd Street near Alice, in that case it was not pipe laid in a flat position, as most of the pipe had a very steep drain, but still the sewer acids ate it out. Replacements are going on continously, but they are usually of small nature and not much is paid on it but at the end of a year the costs are terrific, and this one item will give you some reason why the City would like to see a high tax rate and in addition to the improvements that must be made to the City's sewage system, it would give them an opportunity to fix up past mistakes and improper material uses.

democracy

By Charles H. Ingersoll
(Of Dollar Watch Fame)

NEW YORK, (Radio Broadcast),—

"Having the last word" is poor policy, either in an argument or in a speech—spoken or written. Many a good "talk" is lost to the world because its author hasn't got everything ready to pack into it, and so puts it off until it is forgotten. And its loss is even oftener caused by overlooking a talk so that Mr. Average Reader or Listener can't take it all in. Homeopathy is as good in preaching and teaching as in healing.

Ingersoll

In the choice of two evils, choose neither; but in the case of two good things, grab both of them! There's a lot of forcing of evils on people because they don't know they are not obliged to choose one or the other. For a big example, we are made to think we must take some form of communism, because, forsooth, our democracy is working so badly. But the fact is a little attention to it would make it work perfectly.

Reading a list of the $100,000,000 benefactions of E. S. Harkness almost convinces one that this must be the solution of all humanity's urgent problems—the perfect formula! While providing cures for disease, it establishes the source of wisdom and learning that should curb disease—undermine it—and the same for unemployment, poverty, depression and war. Where the 100 million came from may be interesting in this connection—the oil business, it is said. Suppose the fact that gushers from a source—nature or Jehova—that no Harkness had any claim on—forced these millions into Harkness' pockets. Suppose that because the millions got into those alien pockets, the government treasury was left barren of its natural revenue, so it had to go picking private pockets, doubling living costs, cutting in half consumption, creating millions of unemployed? And suppose—just suppose—letting all the Harknesses have the natural resources and other such as franchises and economic rents. Suppose it created monopoly of them, so that capital and labor were fenced away from access to them in wealth production. Well, suppose all that and maybe you will see another and better solution of the human muddle than the Harkness solution.

HEALTH-GERMS

By George Starr White, M. D.

SPIDERS

LOS ANGELES,—Some spiders are said to be "poisonous", while others are said to be "non-poisonous". The fact is NO spider is a "safe companion". The bite of ANY variety of spider may cause great pain, sickness, and death.

Spider-webs should be regularly swept down from walls, or from trees or shrubs. Webs of any kind on shrubs or trees can do much harm.

Dr. Geo. Starr White

Never sleep under trees with the face up, without a net cover to prevent spiders from "dropping down" to bite U. Many cases of blindness are caused by spider bites on the eyelid. These eyelid-bites are made while the victim is sleeping, or having the eyes closed. The spider "drops down" from a ceiling or from a branch of a tree; and for some reason will bite the eyelid more often than other parts of the body; probably because the eyelid twitches automatically, when hit by any object. The twitches annoy the spider; so it bites; and that bite may cause total blindness in the eye under the bitten eyelid.

The "Black-Widow" has been made popular thru timely press notices. The natural enemies of this spider are lizards, including the "horned toad", frogs and toads. There is a small insect that lays its eggs on the spider egg-sac, so the young insects bore thru the sace and devour the eggs.

Incidentally, the egg-sac of the Black-Widow, if broken and coming in contact with the skin, is as poisonous as the "Widow" herself.

The Black-Widow (shoe-button) spider will not remain on wood or metal first painted with aluminum paint and then with glossy white paint. All dark places and corners; and seats of "out-houses" should be so painted.

No Anemia with Garlic and Olive Oil

NEW YORK,—Thinking out loud: The doctors are learning about garlic. They are using it for high blood pressure and in several other kinds of cases. . . The healthiest people I can think of at the moment are Italians, notable garlic-consumers, also olive oil addicts. There may be anaemic Italians, but they don't live in our town. I known several Italians, and I notice that they don't complain of dry skin, chapped lips, cracked finger-nails, as do so many of us Americans. . . A group of my friends may be found any evening at Joe and Roe's Italian restaurant, in Third avenue, where there's just a ghostly whiff of garlic.—Charles B. Driscoll.

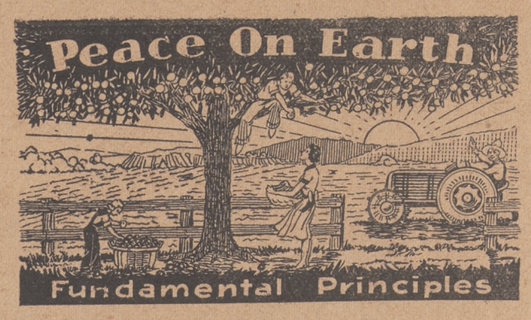
"Why starve yourself when you can luxuriate?"



EASTER MORNING

The Life After Death

Jesus Christ was no namby-pamby foody-doody good for nothing. To imagine that to be a "Christian" is to be a sucker who permits himself to be cheated, robbed and fooled is the height of folly. A Christian is one who is so superior in intelligence that none can fool him; he needs not resort to violence to protect himself. Only weak people resort to violence; fear is what brings on wars. Christians fear nothing and nobody. They are safe because they are wise to everything. "Be ye as wise as serpents and as harmles as doves", but nobody's fool.

Jesus Christ was a he-man. He held his ground even unto death. And to hold one's ground to the bitter end in the face of the adversary, that is Christianity and there is no resurrection and no Easter morn, except for him who follows in the Master's footsteps, up Golgatha.

Now there are people who say that because Jesus was sentenced to death 1910 years ago is no reason for "Jew-baiting" to-day. And there is none, except that the Jews did not change their "religion" during the last 1910 years and are as cruel and relentless against true Christianity to-day as they were then. The Jewish Law never changes, it is the same to-day as then and the "true" followers of that law conspire to-day as they did then, how to usurp dominion over all the nations. And they are doing it, too.

The difference between a Talmudic Jew who follows the Jewish law and a Christian who follows the Golden Rule is that the Christian does not resort to treachery, violence and murder. Those who war on one another and on the Jews are not Christians no matter how long they cry "Lord, Lord", for they do not obey His commandments. They are Jews and subject to the Jewish law of retribution. That is why Germans, French, Britons and Nazis suffer together with the Jews. Christians do not resort to violence to protect themselves. Christians obey the law and never violate it. They are not suckers. Only suckers try to get around the law and expect something for nothing, or by force, be it heaven, be it wealth and the unscrupulous among the Jews can, then, exploit the suckers.

To obey the law of our being is to know God. This is the first step in Christianity. To henceforth be completely devoted to that service as Jesus said: "You are either with Me or against Me", brings such profound understanding that one never needs resort to violence for protection, but that does not imply that one remains ignorant of the wiles and treacherous methods of the adversary who works to take advantage of gullible humanity. The Christian knows these methods through and through and goes them one better. And he dares expose them and that is when the outfit hollers: "Jew baiter", "blasphemer" for they do not love the truth and cannot stand the light of day.

The Christian does not run away from persecution, nor does he compromise for the sake of "peace". He does not use nor advocate violence. His power is deeper than that, he proclaims the truth and lets the adversary commit violence when attempting to stop him. And then they are up against God Almighty. While the individual might get killed in the process, he dies for the love of God in the execution of his duty. Then comes for him the marvelous day of resurrection which is his Easter morn.

Every THURSDAY night

POLICE PENSION FUND GETS RICHER

Last Wednesday afternoon I mosied along Ash street, going east from the civic center, crossed Kettner and went along slowly, lost in thought composing in my mind an editorial article, when suddenly a police car broke my reveries, pulling along side and ordered me to the curb.

A tall fellow stepped out: "What about that stop? Why did you not make it?"

"Didn't I? I really do not remember."

"No, you didn't. Show me your driver's license, please," and he wrote out a ticket. "You see, Mr. de Aryan, while you drove slowly, still you did not make a complete stop and if some fool was racing along at 40 miles in front of you, you might have had a collision."

Now while I was moseing along I was subconsciously thinking, "must make stop at State street", was looking for that stop, but I never got to it before the cops drove up. "We followed right behind you, that's the way I know you did not make that stop."

Anyway, he was talking so civilly and respectfully that I started to like him. That's the way a courteous officer ought to treat the public. So I asked him: "What's the bail?" — "Really, I cannot tell. It used to be $3 but it has been reduced." No use trying to deny it, since I could not remember, I was thinking of something else and subconsciously was watching to drive slowly and not miss that stop at State street, so I could have no decent alibi, now. Best thing, pay that fine. I drove to the police station and the police & firemen's pension fund is richer with my two bucks. And while at the station I paid a call to Uncle Pete and was introduced to his new nephew. Pete was tickled pink when he heard I had to fork over two bucks.

The name of the arresting officer is Thos. N. Hays. Really, I don't mind the two bucks, having found one courteous police officer even though the department is shot to hell. And I have a hunch that if the privates would be let alone we would have a mighty fine department. It's the politcial superiors who ruin the morale.

TAILORS and CLEANERS
GEORGE A. SAUL, Tailor. 1115 Broadway

CHURCH AND WAR

WASHINGTON,—Isn't it futile and fatuous for men to prate of our Christian civilization when warfare in its most horrible form still exists and virtually no steps are taken by the churches to abolish it? Hasn't the time arrived for Christian organizations to take concerted action in checking these ever recurring world conflicts and in so doing relegate savagery to jungle depths where it originated?

Guy de Maupassant wrote: "What have they ever done to show their intelligence, these valiant warriors? Nothing. What have they invented? Guns and cannon, that is all . . . The inventor of the wheelbarrow, has he not done more for humanity by the simple and practical idea of fitting a wheel between two poles than the inventor of modern fortifications? What remains of Greece? Books and marbles. Is she great by what she conquered or what she produced? . . . Did Napoleon the First continue the great intellectual movement begun by philosophers at the end of the last century? . . . Since governments assume the right of death over people, there is nothing astonishing that the people sometimes assume the right of death over governments . . No one has the right to absolutely govern others. It can only be done for the good of those governed. Whoever governs must consider it as much his duty to avoid war as it is that of the captain of a vessel to avoid shipwreck." —E. K. GOLDSBOROUGH.

WHO PROFITS FROM WAR ?

Read the headlines of the financial pages:

PEACE TALK DEFLATES AIR STOCKS

Wheat Prices Lower after Hitler-Mussolini Peace Parley.

But the next day:

AIR RAID PUTS PEP IN STOCKS; AIRCRAFTS LEAD

Wheat Soars as Peace Bag Deflated.

It is evident the common people do not want war but the speculators and armament 'industrials' in the 'investment' game are boosting for more war.

A Dollar taxed is a Dollar less to buy with.

RADIO TALK over KGB (dial 1330)

Good For Gamblers

I had informed Sheriff Dort repeatedly that open gambling was going on at the Emerald Hills Country Club. He denied it. But the District Attorney had to take action when he was similarly informed and ordered his investigators to raid the place because gambling was being conducted right in the front room. They hauled a truckload of gambling paraphernalia away and have asked that the liquor license be revoked by the State Board of Equalization and the dance license be canceled by the County Supervisors. Evidently we have a very good sheriff, good to the gamblers.

Census Unconstitutional

Many readers of The BROOM have asked me what I would do when the census taker comes along and asks me personal questions. Senator Tobey of New Hampshire is pointing out that questions regarding personal income are unconstitutional. I agree with him. The constitution guarantees that every citizen is to be safe in his private person, his papers and effects except when charged with a criminal offense and then he cannot be forced to testify against himself. The constitution provides that people who must pay an income tax have to make a report of their income, but it does not provide that those who pay no income tax must disclose their private affairs. The attitude of the census legislators seems to be the same as concerns constitutionality as was expressed by President Roosevelt when he wrote a letter to congress in favor of the Guffey coal bill, he said: "I hope your committee will not permit doubts as to constitutionality, however reasonable, to block this suggested legislation". I have taken an oath to uphold the constitution when I became a citizen and I shall uphold it. I'll tell the census taker that I don't answer unconstitutional questions.

Auto License Plates

Why is it that we have to get a new license plate and a new number each year for our cars? Why could we not get a permanent number when we buy a new car and have this number assigned to the car? All we would have to do then, would be to pay the license fee and the tax, in January of each year and would not have to line up for a new plate. The Motor Vehicle Department would save lots of money for plates and the work it takes to hand them out. We won't have to memorize a new number each year and could better remember the number of our car. Can you tell, offhand, what the license number on your car is this year? Can you? I have to stop and think twice to make sure it is not the other number I had the previous year. Of course, the plates will have to be of a better type of material than is being used now so they could withstand wear and tear. But it would save money and bother. Instead of changing the license plates all we would have to do is get a new white slip. That would be proof that we paid the tax for the current year. Why don't you take this matter up with your assemblyman or write the Motor Vehicle Department at Sacremento.

Tideland Rents

Councilman Addison Housh of San Diego is opposed to selling the city lot on 13th street for $2,000. He says that the city could get more revenue in the long run by leasing it out and collecting the rentals. He is right. We have a good precedent in the Harbor Department. The city received last year $53,000 from the leases of its tidelands and $16,370 from the leases on Lindbergh Field, a total of $69,370 for one year. And as time goes on the value of those leases increases. This produces an everlasting revenue which in the long run is much better for the city than selling its lands to let private individuals pocket the unearned increment while the rest of us will have to pay in higher taxes to make up the deficit.

Boycott

As long as we live under the stars and stripes we do not have to submit to private tyranny by organized minorities who do not seem to appreciate the privilege of living in a country where religious rights as well as freedom of speech and freedom of the press are inalienable rights, guaranteed by the constitution. Anyone of us who realizes that national, international and personal well-being cannot be had by spreading hatred will not demand that we obey and comply with their hatred of others, under penalty of being put out of business ourselves.

You will notice in last week's issue of The Broom that 45% of our six page paper was filled with advertisements which proves that we have many Gentile businessmen in San Diego who dare to call their soul their own. I urge you to patronize them for they are your real friends who have courage to uphold our constitution and our rights to worship God as our conscience dictates without submitting to the tyranny of alien elements who have no appreciation for the true spirit of Christian America. Our religion commands us to keep our hearts free from hatred and you will notice that in this spirit the Quakers are helping right behind the firing lines the victims of the warring nations by bringing aid and feeding the hungry regardless of nationality. Let us all follow this good and truly Christian example. We have opened our country to accept many refugees regardless of nationality or religion, but some of them are setting themselves up as our bosses and are trying to destroy us right in our own country by assuming an arrogant attitude because they are organized for that purpose. No wonder they were not wanted in the old country.

Radio Fan Mail

I received a letter from Tujunga, California in which one of our readers writes as follows: "Last week we were invited to spend the evening with one of our neighbors who have an exceptionally good modern radio set, and we were well pleased with your comments".

From Pacific Beach the following letter reached my office: "Enclosed is a dollar for your broadcast of February 29 on Federal Reserve Control. If you have a child in one of the Higher (?) Institutions of learning (?) (and I am referring especially to State College) you know how thoroughly that teacher's philosophy has permeated the curriculum, so that SCIENCE and worldly success are all-important, and God—well, He is is just of secondary importance and consequence. You may or you may not be interested in learning that at least one person has stopped using tobacco,—and I know stopped for good,—due to your comments and the knowledge that Dr. White doesn't approve of it. So your work doesn't all fall on stony soil. Perhaps sometime you will tell all of us how each individual can go about finding their place and work in the kingdom of God". This letter was signed by a lady.

Eternal Principle

Her reference to the broadcast of February 29 related to an interview with a High School Teacher who belittled the idea that good government must be based in eternal principle. When I started The BROOM, nine years ago, some people advised me to cut out religious subjects as well as any mention of natural health methods. They said that religion and medical topics are controversial and should not be dealt with in a newspaper. But The BROOM is different from other papers who are primarily commercial papers. We are interested to bring out the truth and that cannot be done unless we start from the beginning, for the truth is the highest religion and there is no religion higher than the truth. So there is no limit to the number of subjects which we discuss in The BROOM. Everything that is of human interest has a place in The BROOM as long as it leads to progress and higher ideals which we must put into practice to make this a better world to live in.

Anyone who wants to find his place in this world and work to bring about the realization of the kingdom of God, has to start with himself, naturally. All he has to do is use common sense and be honest about it. To give an example: For three years, when I was 16 years old, I repeated to myself morning, noon and night, that the highest thing worth while is to love the truth. Just try and tell the truth and see what happens. Besides, the moment you discover that something is not right which you were in the habit of doing, have you sufficent stamina to change your habits and start a radically new way of living? The way to the truth is by practicing it in your daily life. And the kingdom of God is not outside but right within our own conscience. When we know what is right but fail to do it, when we know what is wrong and continue to do it, that is when we work against God. Reverse the process and you naturally work in the kingdom of God.

Crucifixion

To-night Christians commemorate all over the world the betrayal of Jesus Christ for 30 pices of silver, His arrest by the authorities of Jerusalem who charged Him with blasphemy for which they sent Him to Pilate to be crucified. Of course, while He submitted like a lamb to be taken to Pilate, be insulted, beaten up and finally crucified, it brought out the meaning of the Christian concepts of religion & of God. He gave His life to impress it upon us. May we always remember it and follow in His foot steps. He warned us that we, too, would be persecuted and hated if we followed His religion in daily life and since they called Him a blasphemer and attempted to set a warning example to the rest of the world not to follow Jesus Christ, by hanging Him on the cross, we need not be surprised that ever since such persecution has continued through the ages wherever real Christians dared follow the teachings of the Master of Nazareth.

Keep America Christian

The United States of America was founded by Christian thinkers who embodied the idea of the Fatherhood of God and the Brotherhood of Man right in the Declaration of Independence when they proclaimed that God has made all men equal and has endowed them with certain inalienable rights. To defend these rights governments are instituted. Among these rights is freedom of speech, freedom of worship and freedom of the press. And the federal law later on put teeth into this idea of individual liberty by making it a felony punishable with a fine up to $500 and imprisonment up to 10 years, "if two or more persons conspire to injure, oppress, threaten or intimidate any citizen in the free exercise or enjoyment of any right or privilege secured him by the Constitution or laws of the United States, or because of his having so exercised the same".

If anyone should approach you, or any other advertiser in The BROOM and tell you that a group of people in San Diego have decided to injure your business if you continue to advertise in The BROOM, bear in mind that this is an interference with constitutional liberty of the press, as well as interference with your personal rights and privilege to advertise where you chose of your own free will. Do not argue with such people, but after they leave, write down their name, what they said, the date and the location where the conversation took place. One of these days we might have a congressional investigation of subversive activities here in San Diego and you will be able to contribute your testimony.

THEM ASSES

"I have seen nations, like overloaded asses kick off their burdens—meaning upper classes." —Lord Byron.

The masses are asses
Who do as they're told—
Ridden to market
And traded for gold.

Once in a while
To see how it feels,
They throw off their riders
And kick up their heels.

And this being done,
They halt in their track,
And wait for their riders
To climb on their back.

—Don Sietz.
